	EB	Neurology		

From AG diary

March 10, 1931

Dr. Wilder Penfield - Clinical Prof. Neurological Surgery, McGill

AG explains that he prefers not to take up any special proposals at this time. P. understands and is very helpful in discussing neurology in the U.S. He emphasizes the services of Weisenberg of Penn. as editor of the Amer. Jr. of Neurology; W's critical ability has raised the quality of contributions to that jour. very considerably
